

Development Consent Order EN010142

The Thornholme Wind Farm Order 2025

Order reference	EN010142
Applicant	Thornholme Renewables Ltd
Decision	Granted
Date of decision	3 November 2025
In force from	24 November 2025

Preamble

The Secretary of State for Energy Security and Net Zero, having considered the application and the Examining Authority's report dated 5 August 2025, and being satisfied that the development is a Nationally Significant Infrastructure Project under the Planning Act 2008, makes the following Order.

Article 2 — Grant of development consent

Development consent is granted for an onshore wind generating station with an installed capacity of up to 420 MW, comprising up to 80 turbines with a maximum blade-tip height of 200 m, an on-site substation, underground cabling, and grid connection works at Thornholme Moor, in accordance with the works plans certified under Article 30.

Article 3 — Limits of deviation

In carrying out the authorised development the undertaker may deviate laterally within the limits shown on the works plans and vertically to the heights specified in the design parameters at Schedule 2.

Requirements (Schedule 1)

No part of the authorised development may commence until details of surface-water drainage, construction traffic management, and a biodiversity net-gain plan have been submitted to and approved by the relevant planning authority. Commissioning is subject to a noise-management scheme.

EXECUTION

Signed by authority of the Secretary of State

A Senior Civil Servant, Department for Energy Security and Net Zero
