

Red-Line Boundary Plan TH-RL-01

Site outline, Thornholme Moor — scale 1:5000, Revision C

Drawing reference	TH-RL-01, Revision C
Date	30 March 2026
Grid reference	TA 045 612
Postcode	YO25 3QF
Datum	WGS84 / OSGB36

1. Drawing description

The red-line boundary encloses 188 hectares centred on grid reference TA 045 612. The plan shows the turbine layout (80 positions), internal access tracks, the on-site 33/400 kV substation compound, the temporary construction compound and laydown areas, and the underground cable corridor to the Creyke Beck connection point approximately 6 km to the west.

2. Connection point coordinates

The proposed point of connection lies on the 400 kV Creyke Beck corridor at the coordinates listed in the schedule below.

3. Energy-density check

188 ha for 400 MW equals 0.47 ha/MW, which exceeds Ofgem's minimum acreage for onshore wind under the Gate 2 energy-density table. The layout maintains the statutory toppling distance from the red-line boundary at every turbine position.

Schedule A — Key coordinates (WGS84)

Feature	Latitude (N)	Longitude (E)	Note
Point of connection	54.012	-0.471	400 kV corridor
Substation compound	54.018	-0.452	33/400 kV
Site centroid	54.021	-0.438	TA 045 612
Northern boundary	54.034	-0.441	red line
Southern boundary	54.008	-0.435	red line
